Europe Cross

The Europe Cross at the viewing point Alberfeldkogel is one of the most popular hiking destinations for hikers and mountain enthusiasts at the Feuerkogel, which offers a fantastic 360-degree panorama view of the lakes Traunsee, Langbathsee and the mountain summits of the Salzkammergut.

On the occasion of the Austrian Council Presidency of the European Union council in 2006 the Europe Cross was produced by more than 100 pupils in the workshops of the HTL Wels and handed over at the dedication ceremony to 'Naturfreunde Ebensee'.

The Europe Cross on the Feuerkogel was assembled using individual cubes, with each cube symbolising an EU member state.

The Europe Cross can be reached on foot in about 1 hour from mountain station Feuerkogel.

More information you can find in the brochure in the stations of the Feuerkogel cable car.

It is an indication of the basis of equality and unity in the individual states in the European Union and the connections which the individual states have with one another.
