

Mountain experience for the whole family

The Feuerkogel, Upper Austria's sunniest point, invites you to an unforgettable experience in the heart of the Salzkammergut with a fantastic 360 degree panoramic view of the Dachstein and lake region, cozy huts and many sports opportunities!

Not only families with children and leisure hikers will find many different hiking options at every level of difficulty on the Feuerkogel. Sporty mountain enthusiasts will also get their money's worth on the Feuerkogel. We recommend an excursion to the Alberfeldkogel viewing platform and the impressive Europe cross (walking time approx. 1 hour, suitable for children), or a longer tour to the Großer Höllkogel or the Riederhütte. From there you can continue the mountain tour and cross the impressive Höllengebirge.

For an all-round perfect experience, we also pay attention to sustainability. In addition to e-charging stations, all facilities are supplied with electricity from renewable energy sources! Sustainable, of course!

The Feuerkogel is part of the „Bergbahnen Dachstein Salzkammergut“ region. All locations of OÖ Seilbahnholding GmbH with Dachstein West in Gosau, Russbach and Annaberg, Feuerkogel Ebensee, Grünberg Gmunden and Dachstein Krippenstein Obertraun can now be found under this umbrella brand.

The Europe cross with 360° panoramic view

The Europe Cross on the Alberfeldkogel viewing platform is one of the most popular hiking destinations on the Feuerkogel with a fantastic 360-degree panoramic view of lake Traunsee, lake Langbathsee and the mountain peaks of the Salzkammergut.

On the occasion of Austria's presidency of the Council of the EU in 2006, the Europe Cross was made in the workshops of the HTL Wels and ceremoniously handed over to the Naturfreunde Ebensee.

The summit cross is made up of individual cubes and each cube symbolizes an EU member state. This is a reference to the principle of equality and unity of the individual states in the European Union and to the ties between the individual states.

Each of these cubes is inscribed with the name of the state it symbolizes in the country-specific spelling. A stone from the respective country is built into the inside of the cube to indicate the country's characteristics.

Tip: The Europe Cross can be reached from the mountain station in around 1 hour on foot. More information about the individual stones can be found in the Europe cross folder (only German language) in the cable car stations.
